

Tudo design is an Israeli company engaged in import and marketing in the field of furniture.

The company is about 5 years old and its managers have over 20 years of experience in the field and they have been to a wide variety of exhibitions all over the world and visited leading factories.

The company owns a logistics center in the central region of Israel and, in addition, operates through hired drivers and furniture assemblers and subcontractors for the transportation and assembly of the products sold by it all over the State of Israel.

The company's activity is done through the leading trading websites in Israel, including the company's sales website and part of the activity is done offline in physical stores.

The company imports products in flat packaging in the following areas:

- * Living room products - TV stands, coffee tables, side tables
- * Bookcases and bookcases - bookcases made of industrial wood only or a combination of wood and metal, chests of various types, entry consoles.
- * Closets and storage - wardrobes, service closets in a wide variety of types, shoe closets
- * Kitchen - bar tables, complementary cabinets for the kitchen
- * Bathroom - bathroom cabinets with mirror
- * Desks - a variety of desks for children's rooms and offices
- * Armchairs - designed single armchairs

Our goal is to find quality manufacturers at attractive prices in order to strengthen our core categories on the one hand and grow into new categories on the other hand.

It is important to us that the manufacturer with whom we will work knows the world of e-commerce and knows how to provide us with products in suitable packaging (strong outer cardboard and protections for the product inside the packaging), knows how to provide a high-quality product with orderly assembly instructions that include illustrations and basic explanations about assembling the product, knows how to provide us with high-quality photos of the products that we bought from him and that he knew how to give us service and suitable spare parts after receiving the products from him.

Some pictures of our products:
